SUMMARY

Creative software engineer with the ability to pick up new languages and technologies as needed. Prior to learning software development, I interned with sports organizations such as the Atlanta Hawks, Atlanta Dream and Georgia Tech with a focus on marketing, branding, photography and editing. These skills give me a unique perspective that I hope to add to my future team.

SKILLS

JavaScript, Python, Node.js, React, Express, Redux, PostgreSQL, Bootstrap, HTML, CSS

EDUCATION

DigitalCrafts | December 2021
Certified Full-Stack Web Developer

Georgia State University | May 2020

B.I.S in Interdisciplinary Studies

RECENT PROJECT(S)

Weather Application | October 2021 | Github | Live App

- Weather-generating software application for gathering specific information on weather data for any U.S city.
- Features for this application include collecting wind speed , temperature , temperature and humidity
- Built with HTML, CSS and JavaScript and uses API fetch calls

WORK EXPERIENCE

Student Assistant | Georgia State University| Atlanta,GA

- Oversee intermediate sport officials for numerous sports
- Led weekly meetings based on weekly performance of officials
- Maintained a safe playing area to mitigate injuries
- Supervised upto 4 officials and 20 participants on a given night
- Handle high pressure disputes amongst players

Atlanta Dream | Photographer | Atlanta, GA

- Execute and coordinate upto 300 pictures a night for the needs of the ATL Dream social media
- Provide photography for sponsors such as Coke , AT&T, StateFarm, Arbys and many more
- Follow a precise "shot-sheet" to be in place for specific photographs
